Dr. Daniel James Shearer, PhD, is a Master Hypnotherapist and Ordained Minister with a degree in Philosophy of Religion. He lives with his family in Scottsdale, AZ, and has retired from 30 years in the transportation industry.

When in 1972 he had an "out of body experience" that changed his belief system, he began to question and study the metaphysical and the ability of our mind.

Daniel received his training for Hypnosis at Southwest Healing Arts. After more than 40 years of research and study of the mind-body connection he includes in his practice, since 2001, Huna and intuitive healing, hypnosis, and binaural tones to assist his clients.

Presentation for ASPH

My presentation will briefly talk about binaural tones and one of the missions of the Monroe Institute in directing and locating souls that have lost their way between "here and there."

Using a panel of volunteers/total group, those that are willing through use of their iPhones, will be placed in a hypnotic state. I will direct them to find the most important thing that they need to know now for themselves. Through connection of their subconscious and super conscious minds we will, in 45 minutes, demonstrate the power of this modality.

I will, during this presentation, use binaural tones and assist people with iPhones to down load a free app that gives an example of what the tones sound like.

The Apple application I will be using for download to iPhones is a free app called "Digital Meds". For one individual I will be using a tone generator on my lap top that is the result of my work with the Monroe Institute.

To those in attendance I will provide a fee download of my book, One Cool Lemon Winning the Human Race.
